Playing and Sport and Performing

If you are playing a fall or winter sport, please communicate with your coach before you audition to determine your commitment level for the show. You will need to be able to make rehearsals at least once a week depending on your role and specific details.

How to Prepare for an Audition:

1. Know your availability. Look at the show dates and any days after school between now and then. Make a list of any conflicts you may have with rehearsal times or show dates. Have these ready to turn in when you audition.
2. Choose a part you would most like to audition for. Think about what you are most skilled at, what you are most passionate about and what availability you have to commit to the role. *Also, consider whether you are willing to take any role if not cast in your desired role.*
3. Practice a song from the music linked below that corresponds to your desired role. **Practice with the voices on the track and without.** Be prepared to sing a verse and a chorus without words in the music. (If auditioning for a lead role, prepare the whole song to the best of your ability right now).
